## 1. Introduction

Congratulations on your purchase of the Philips SRU540 universal remote control. After installing the remote control you can operate a maximum of 4 different devices with it: TV, DVD player/recorder, video recorder and SAT (settop box, satellite or cable decoder). You can find information about how to prepare this remote control for use in the chapter 'Installing the remote control'.

## 2. Installing the remote control

### Inserting the batteries

- 1 Press the cover inwards and slide it in the direction of the arrow.
- 2 Place two AAA type batteries into the battery compartment, as shown.
- 3 Slide the cover back and click it firmly into place.

*Note: If the device indicators in the selector window (TV, DVD, SAT and VCR) blink four times after every key press, the remote control is indicating that its batteries are running low. Replace the old batteries with two new AAA batteries.*

### Testing the remote control

The remote control has been programmed to operate most Philips devices. Because the SRU540 may use different signals for each brand and even for different models of the same brand, it is advisable to test whether your device responds to the SRU540. The example below (TV) instructs you how to do this. You can repeat the same steps for other devices (DVD player/recorder, video recorder, etc.) which you want to operate using the SRU540.

Example of TV:

- 1 Turn your TV on manually or use the original remote control.  
Tune to channel 1.

## Instructions for use

English

- 2 Press the SELECT key to select TV.  
Press the key until TV lights up in the selector window.

*If TV does not light up, check whether the batteries are properly inserted (see 'Inserting the batteries').*

- 3 Check whether all keys are working.  
For an overview of the keys and their functions see '3. Keys and functions'.
- If the TV responds as it should to all of the key commands the SRU540 is ready for use.

- **If the device does not respond at all or not to all of the key commands, follow the instructions under 'Setting the remote control', or for online setup go to: [www.philips.com/urc](http://www.philips.com/urc).**

### Setting the remote control

This is only necessary if your device does not respond to the SRU540.

If that is the case, the SRU540 does not recognize the brand and/or model of your device and you need to program the remote control to do so.

The example below (TV) instructs you how to do this. You can repeat the same steps for other devices (DVD player/recorder, video recorder, etc.) which you want to operate using the SRU540.

#### Automatically setting the remote control

The remote control will now automatically search for the right code for your device.

Example of TV:

- 1 Make sure the TV is switched on and select a channel using the original remote control or the keys on the TV (for example channel 1).  
The SRU540 emits the 'switch off TV' signal for all models of TV that are stored in the memory.
- If the device is a DVD player/recorder or video recorder, insert a disk or tape and start playback.
- 2 Press the SELECT key to select TV.  
Press the key until TV lights up in the selector window.

- 3 Then keep keys 1 and 3 pressed simultaneously for five seconds until TV in the selector window flashes twice and then remains lit.

- 4 Press and hold the Standby key of the SRU540.

## Instructions for use

English

- The SRU540 now starts emitting all known 'TV off' signals, one by one.  
Each time a code is sent, TV in the selector window lights up.

- 5** When your TV switches off (stand-by), release the Standby key of the SRU540 immediately.
- The SRU540 has now found a code that works on your TV.
- 6** Check if you can operate all functions on your TV with the SRU540.

- **If this is not the case, you can redo the automatic setting. The SRU540 will then search for a code that works better.**

- After the SRU540 has run through all the known codes, the search will stop automatically and TV in the selector window will stop flashing.
- Automatic programming of a TV takes a maximum of 5 minutes. For DVD, VCR and SAT this time is 2 minutes

### Manually setting the remote control

Example of TV:

- 1** Turn on the TV manually or use the original remote control.  
Tune in to channel 1.
- 2** Look up the brand of your TV in the code list at the back of this manual. One or more four-figure codes are shown for each brand. Note the first code.  
*Be careful! There are separate tables for TV, video, DVD, etc.*

On our website [www.philips.com/urc](http://www.philips.com/urc) you can directly select your device typenumber to find the right code.

Make sure you use the codes from the correct table.

- 3** Press the SELECT key to select TV.  
Press the key until TV lights up in the selector window.

- 4** Keep keys 1 and 3 **pressed simultaneously for five seconds** until TV in the selector window flashes twice and then remains lit.

- 5** Then enter the code noted in step 2 using the digit keys.
  - TV in the selector window will now flash twice.
  - If TV flashes once for an extended period, the code has not been entered properly or the wrong code has been entered. Start again from step 2.
- 6** Point the SRU540 at the TV and check that it responds as it should.
  - If the TV responds to all of the key commands, the SRU540 is ready for use. Do not forget to note your code.

- **If the device does not respond at all, or not to all of the key commands, start again from step 2 and try the next code from the list.**

### 3. Keys and functions

The illustration on page 3 gives an overview of all keys and their functions.

- ① **Standby** . . . . . switches TV, VCR, DVD or SAT on or off.
- ②   . . . . . - teletext on/off (  );  
   . . . . . - text off (  );  
 . . . . . - wide screen TV (  );  
 . . . . . - subtitle (  );  
 . . . . . - text hold (  ).
- ③ **MENU** . . . . . turns the menu on and off.
- ④ **Cursor keys** . . . . . cursor up, down, left, right in a menu.
- ⑤ **AV** . . . . . switches between external inputs of your equipment.
- ⑥  . . . . . mutes the sound of the TV.
- ⑦ **- VOL +** . . . . . adjusts the TV volume.
- ⑧ **Digit keys** . . . . . direct choice of channels and other functions.
- ⑨ **SHIFT** . . . . . for extra functions. When pressed at the same time as a second key, the second key will get another function. All blue labelled keys can be used together with SHIFT. For example:

**SHIFT + INSTALL** . . . . . installs your TV

**SHIFT + STORE** . . . . . stores TV settings

Try out other combinations with the SHIFT-key on your device in order to find out which functions are available.

Only functions featured on the original remote control are available.

- ⑩  . . . . . - red teletext key  
 . . . . . - rewind (VCR/DVD)  
 . . . . . - index  
 . . . . . - play (VCR/DVD)  
 . . . . . - blue teletext key  
 . . . . . - wind (VCR/DVD)  
 . . . . . - green teletext key  
 . . . . . - stop (VCR/DVD)  
 . . . . . record  
 . . . . . - yellow teletext key  
 . . . . . - pause (VCR/DVD)
- ⑪  . . . . . selects between one- and two-figure channel numbers.
- ⑫ **PP / SURROUND** . . . . . selects previous programme/channel.  
. . . . . selects surround modes.
- ⑬ **- PROG +** . . . . . selects a previous or following channel.
- ⑭ **INFO** . . . . . turns menu info on and off.
- ⑮ **OK** . . . . . confirms your selection.
- ⑯ **BACK** . . . . . jumps back one level in the menu or turns off the menu.
- ⑰ **SELECT** . . . . . selects TV, DVD, SAT or VCR mode.

If you use the (↔) 'memory off' key to get to the next teletext page on your Philips TV, you can press the Subtitle key for this. See also 'Troubleshooting'.

**If the device does not respond at all, or not to all of the key commands, follow the instructions under 'Setting the remote control'. It is possible that you must enter another code for the device.**

## Instructions for use

English

### 4. Extra possibilities

#### Adjusting device selection (Mode selector)

The SRU540 is default set for operating TV, VCR, SAT (settop box, satellite or cable decoder) and DVD. You can select the device you wish to operate with the SELECT key (mode selector). Each option allows operation of one device only. If desired, you can program the SELECT key (mode selector) to select a different kind of device. For example, if you want to operate a second TV. In the following example you will see how to configure the SAT mode for a second TV.

- 1** Switch on the second TV.
- 2** Press the SELECT key to select SAT.  
Press the key until SAT lights up in the selector window.
- 3** Then keep keys 1 and 6 on the SRU540 pressed **simultaneously for five seconds**, until SAT in the selector window lights up.
- 4** Press keys 9, 9 and 2, in that order.
- 5** Press the SELECT key to select TV.  
Press the key until TV lights up in the selector window.
- 6** Press the 1 key.  
– SAT in the selector window flashes twice.  
SAT will now allow you to operate your second TV.
- 7** Program the SRU540 to operate the second TV.  
See 'Setting the remote control'.

## Restoring the original functions of your remote control

- 1** Keep keys 1 and 6 on the SRU540 pressed **simultaneously for five seconds**, until one of the device indicators (TV, DVD, SAT, VCR) lights up in the selector window.

- 2** Press keys 9, 8 and 1, in that order.
- The device indicator in the selector window flashes twice. All original functions have now been restored and any extra functions have been deleted.

## 5. Troubleshooting

- Problem
- Solution
- The device indicators in the selector window (TV, DVD, SAT and VCR) blink four times after every key press.
  - The remote control is indicating that its batteries are running low. Replace the old batteries with two new AAA batteries.
- The device you want to operate does not respond and its indicator in the selector window does not flash when you press a key.
  - Replace the old batteries with two new AAA batteries.
- The device you want to operate does not respond but its indicator in the selector window does flash when a key is pressed.
  - Point the SRU540 at the device and make sure that there are no obstructions between the SRU540 and the device.
- The SRU540 does not respond properly to commands.
  - Maybe you are using the wrong code. Try programming the SRU540 again using another code, which is mentioned under the brand of your device, or reset for automatic search to find the right code. If the device still does not respond, call our helpline.
- The Teletext keys do not work.
  - Find out whether your TV is equipped with Teletext.
- You have difficulties operating all of the functions on your device.
  - Maybe the SRU540 has to be adapted to the model of the device. Call our helpline for details.
- Your brand of device is not in the code list.
  - Try to set the SRU540 automatically. See 'Automatically setting the remote control'.
- None of the codes works during manual setting of the remote control.
  - If that is the case, follow the instructions under 'Automatically setting the remote control'.

## Instructions for use

English

### 6. Need help?

If you have any questions about the SRU540, you can always contact us. You will find our contact details after the code list at the back of this manual.

Read this manual carefully before you make a call. You can solve most of the problems yourself. If you cannot find any answers to your problems, write down the details of your device shown in the code list at the back of this manual. This will help our operators to assist you better and more quickly. Look up the numbers of the models in the instructions accompanying the device or on the back of your device. When you call our helpline, make sure the device is to hand so that our operators can help you determine whether your remote control is working properly.

The model number of your Philips universal remote control is SRU540/10.
